EXPERIENCE

Asthmatic Technologies Software Company | Lahore
Feb – Jun 2023
As a front-end developer I was responsible for developing and implementing user interface components and features for web applications. Following were the key responsibilities

- Front-End Technologies.
- Code Maintenance
- Responsive Web Design
- Utilize version control systems (e.g., Git)
- Troubleshooting (Expert)

IT Mate Pakistan Institute | Lahore
September – December 2022
As a teacher, my primary responsibility was to impart knowledge and teach students how to create and implement simple HTML user interface components and features for web applications. Moreover, I introduced my students to the concept of :

- Linking CSS style sheets to HTML document
- A little concept about bootstrap

ACADEMIC PROJECTS

ATM Machine –Type Script Project:
In this project. I have created an ATM for the server side which takes user data in the terminal and after receiving the data from the user the ATM display shows and the user can perform various functions such as billing cash and Deposit etc.

Portfolio Project:
In this project, I have used several libraries and languages like Tailwind CSS Bootstrap for frontend, and JQuery to add some JS functionality. Also used some icon libraries

CRUD Projects: PHP & MY SQL:
In this project, I used PHP as the server-side scripting language and MySQL as the DBMS. Users can easily create new records, view existing data, update information, and remove unnecessary entries.

Professional Certifications

Advance Web Development MAY– AUG 2023
Al Khwarizmi Institute of Computer Science (KICS) UET Lahore
